Software Engineer and Full Stack Developer with hands-on experience building mobile and web applications. Skilled in Flutter, Dart, Java, Python, REST API development, and MongoDB. Experienced in developing scalable applications, integrating APIs, and designing user-friendly interfaces. Built projects such as the PLAYMATE sports networking app that connects players, organizes tournaments, and enables shared sports equipment access. Passionate about solving real-world problems using software development, cloud technologies, and AI.

EDUCATION

Bachelor of Technology in Computer Science & Engineering with AI and ML, Manipal University Jaipur (2023 - 2027)

Senior Secondary Education, DAV Public School BSEB Patna (2023)

Grade: 81.8%

Secondary Education, DAV Public School BSEB Patna (2021)

Grade: 81.3%

PROJECTS

PLAYMATE – Sports Networking and Tournament Platform

- Developed a mobile application using **Flutter** and **Dart** that connects local players to organize matches, tournaments, and sports activities.
- Implemented **REST API integration** with a **MongoDB** backend to manage user profiles, event scheduling, and sports equipment sharing.
- Designed an intuitive interface in **Android Studio** enabling users to discover nearby players, create teams, and participate in community tournaments.

Handwritten Digit Recognition System

- Built a machine learning model using **Python** and **TensorFlow/Keras** to classify handwritten digits from the **MNIST dataset**.
- Implemented a **Convolutional Neural Network (CNN)** to improve digit recognition accuracy and automate digit classification.
- Developed a preprocessing pipeline for image normalization and feature extraction to enhance model performance.

SKILLS

Languages	Java, Python, Dart, JavaScript
Mobile Development	Flutter, Android Studio
Frontend	HTML5, CSS3
Backend	REST APIs, Node.js
Databases	MongoDB
DevOps & Tools	Git, GitHub, Postman, VS Code

ACHIEVEMENTS

- IEEE Hackerzstreet 4.0 (Hackathon) Runner-Up** - Secured second place in a competitive hackathon, demonstrating strong problem-solving and rapid development skills.
- GATE Qualified (2026)** – Successfully qualified the Graduate Aptitude Test in Engineering (GATE), reflecting strong foundational knowledge in Computer Science and Engineering.
- NPTEL Certificate – Machine Learning (2025)** – Successfully completed the NPTEL online certification course on Machine Learning offered by IIT Madras / NPTEL, covering core ML concepts including supervised learning, unsupervised learning, neural networks, model evaluation, and real-world applications.

ROLES & RESPONSIBILITIES

Organizing Committee – Promotions and eSports, *Glitch! eSports Society*

2024 - 2025

- Contributed to organizing eSports events and managing promotional activities to increase participation and community engagement.

School House Captain, *School Leadership Role*

2021 - 2023

- Led and coordinated student teams during inter-house competitions and school events while promoting teamwork and leadership.
