EDUCATION

BTECH IN DATA SCIENCE, MANIPAL UNIVERSITY JAIPUR
CGPA 8.3 (Till 6th sem)

2021 – 2025 | Jaipur, India

CENTRAL BOARD OF SECONDARY EDUCATION, THE INDIAN SCHOOL
10th - 93%
12th-87%

2021 | New Delhi, India

PROFESSIONAL EXPERIENCE

TASKLANCE ANALYTICS, Data Science Intern

Jul 2024 – Aug 2024 | Remote

- Designed and implemented a fashion product recommendation system leveraging DataStax Astra Database (AstraDB), managing a dataset of over 100,000 product records for efficient and scalable data storage and retrieval. Utilized vector embedding techniques to analyze and compare text and image data, achieving a 20% improvement in recommendation accuracy.
- Integrated text and image similarity algorithms, enhancing the relevance of search results and increasing user engagement by 15% based on optimized recommendations. Conducted optimization to improve system performance, reducing query response time by 30%, ensuring faster and accurate matching of products based on user preferences.

STARLIGHT DATA SOLUTIONS PVT LTD, Cyber Security Intern

Jun 2024 – Jul 2024 | Noida, India

- Acquired hands-on experience with various data forensics tools, enhancing skills in identifying, analyzing, and preserving digital evidence.
- Gained in-depth knowledge of emerging trends and advancements in digital forensics and cybersecurity through continuous learning, research, and practical implementation.

VERTEXPLUS TECHNOLOGIES LTD, Data Science Intern

Jun 2023 – Aug 2023 | Noida, India

- Developed and implemented natural language processing (NLP) algorithms to handle text-based analysis tasks, achieving a 15% improvement in classification accuracy. Cleaned and transformed over 50,000 rows of raw data, ensuring consistency and reliability for downstream processing.
- Conducted exploratory data analysis (EDA) on datasets totaling 5GB, identifying key patterns and trends to guide strategic decisions. Streamlined data preprocessing workflows, reducing processing time by 25% and improving the overall efficiency of the analysis pipeline.

SKILLS

Frameworks/Libraries/Tools — Python : Numpy, Pandas, Scikit-Learn, Pytorch, Seaborn, Matplotlib. | Machine Learning , Database Management , Exploratory Data Analysis

Programming Languages — Python, SQL ,C/C++

PROJECTS

FASHION PRODUCT RECOMMENDER

- Designed and implemented a retail product recommendation system leveraging Python libraries, vector embedding techniques, AstraDB, and vector databases to deliver personalized product suggestions based on user-provided attributes.
- Utilized cosine similarity to measure the similarity between product and user embeddings, recommending products with the highest similarity scores to enhance user experience and satisfaction.

COMPANY REVIEWS SENTIMENT ANALYSIS (NOKIA)

- Utilized NLP techniques to analyze and summarize product reviews and comments from the company's database, identifying overall sentiment (positive, negative, neutral) using libraries like NLTK, SpaCy, and TextBlob.
- Categorized insights from sentiment analysis to drive system improvements and enhance customer satisfaction.

GROCERY STORE INVOICE GENERATION SYSTEM

- Developed an invoice generation system integrating Python and MySQL using MySQL connectors, streamlining the creation and management of customer profiles with contact information and payment histories.
- Designed and maintained a centralized database to store and update product details, including pricing, ensuring seamless handling of inventory and dynamic pricing adjustments.
- Enabled efficient addition or modification of product information, enhancing flexibility and adaptability to evolving business needs.

CERTIFICATES

- Python for Data Science from swayam-NPTEL
- NLP – sentiment analysis from Coursera
- Machine Learning from Udemy

ORGANIZATIONS

ACM STUDENT CHAPTER, Social Media Head

Sep 2022 – May 2023 | Jaipur, India

- Developed and executed a comprehensive social media strategy, boosting brand awareness while analyzing multi-source data to optimize campaign performance.

ACM STUDENT CHAPTER, Junior Working Team Member

Dec 2021 – Jul 2022 | Jaipur, India

- Collaborated with design teams to create engaging visuals, including infographics, videos, and GIFs, optimized for diverse social media platforms.
