PROFILE SUMMARY

Computer Science undergraduate at Manipal University Jaipur with hands-on experience in software development, machine learning, and data analytics. Skilled in Python, C++, SQL, and DSA, with a track record of building AI-based applications and leading technical teams. Passionate about solving real-world problems through data-driven and scalable solutions.

EDUCATION

B.Tech — Computer Science Engineering

Manipal University Jaipur

2023 – Present

Senior Secondary Education

Air Force Golden Jubilee Institute

2014 – 2023

TECHNICAL SKILLS

Languages:	C, C++, Python, Java
Core Subjects:	Data Structures & Algorithms, DBMS, SQL, OOP
Tools:	Git, GitHub, VS Code, MySQL
Concepts:	Machine Learning, Data Analysis, Image Processing, Problem Solving

EXPERIENCE

Chief Technology Officer — LawyerStack

2021 – Present

- Led development of a legal-services platform enabling easier access to professional legal support
- Designed and managed website architecture ensuring scalability and security
- Collaborated with developers and legal professionals to enhance system functionality

Co-Founder — SBS Teaching Organisation

2020 – Present

- Provided free education to 80+ underprivileged students through live classes
- Collaborated with government schools to expand educational outreach
- Coordinated volunteers to manage tutoring sessions, workshops, and operations

Joint Operations Head — CyberSpace Club, MUJ

Jan 2025 – May 2025

- Co-led planning and execution of cybersecurity and technical events
- Organized workshops, hackathons, and sessions promoting ethical hacking awareness

PROJECTS

Plant Disease Detection System | Python · Machine Learning · Image Processing

- Built an ML-based system to classify plant diseases from leaf images using image preprocessing and classification
- Improved early disease detection to assist farmers in crop management

AI Data Analyst | Python · Pandas · NumPy · Data Visualization

- Developed an AI-powered data analysis system for processing, visualizing, and generating insights from datasets
- Built automated dashboards and reports to extract meaningful patterns from structured data

ACHIEVEMENTS

- 🏆 **Runner-Up — Hackerz Street 4.0** · IEEE Computer Society MUJ
First place in a competitive technical and problem-solving hackathon
- 🏆 **Runner-Up — DSathon Snatch 2.0** · IEEE Computer Society MUJ
Runner-up in data science and technical problem-solving competition
- 🏆 **Basketball Captain** · Manipal University Jaipur
Led university basketball team in inter-university competitions; managed team strategy and performance
